

A.K.D.DHARMA RAJA WOMEN'S COLLEGE
(Affiliated to Madurai Kamaraj University)
RAJAPALAIYAM

B.Sc Computer Science

Course Outcomes (CO)

After completing individual courses in the B.Sc. Computer Science programme, students will be able to:

1. **CO 1 -Apply Computational Principles:** Use fundamental concepts of computer science to solve various computational problems.
2. **CO 2 -Develop Programming Solutions:** Design and implement efficient algorithms using appropriate programming languages.
3. **CO 3 -Utilize Analytical Tools:** Employ software tools and techniques for data analysis, processing, and visualization.
4. **CO 4 -Communicate Effectively:** Demonstrate professional communication and teamwork skills in technical environments.
5. **CO 5 -Practice Ethics:** Understand and apply ethical principles, professional responsibilities, and social norms in computing.

Programme Outcomes (PO)

Graduates of the B.Sc. Computer Science programme will be able to:

1. **PO 1-Develop Scientific Aptitude:** Build logical reasoning and a scientific approach to problem-solving.
2. **PO 2-Acquire Comprehensive Knowledge:** Gain fundamental and advanced knowledge of Computer Science along with insights into humanities and allied subjects.
3. **PO 3-Demonstrate Practical and Technical Skills:** Apply practical laboratory skills and technical competencies to solve computational problems.
4. **PO 4-Employ Computational Thinking:** Utilize programming and algorithmic concepts to address theoretical and applied problems.
5. **PO 5-Enhance Employability:** Be eligible for diverse career opportunities in education, industry, or become entrepreneurs.
6. **PO 6-Prepare for Higher Education:** Possess foundational knowledge required for pursuing higher studies, professional and applied courses in Computer Science and related domains.
7. **PO 7-Adopt a Solution-Oriented Approach:** Develop awareness and solutions for addressing social and environmental challenges using technological skills.
8. **PO 8-Apply Analytical Reasoning:** Identify patterns, analyze data and develop models to solve complex real-world problems.
9. **PO 9-Collaborate and Communicate Effectively:** Share ideas, seek knowledge from others, and function effectively in teams.
10. **PO 10-Become Responsible Citizens:** Uphold ethical standards, cultural sensitivity and social responsibilities in a rapidly changing, interconnected world.

Programme Specific Outcomes (PSO)

On successful completion of the B.Sc. Computer Science programme, students will be able to:

1. **PSO1-Master Core Areas:** Gain in-depth knowledge of areas such as data structures, algorithms, databases, software engineering, networking, and emerging technologies.
2. **PSO2-Develop Software Applications:** Design, develop, and test software systems to address real-world problems and industry needs.
3. **PSO3-Engage in Research and Innovation:** Employ computational tools and methodologies to support research, innovation, and continued learning in computer science.

Programme Educational Objectives (PEO)

Within a few years after graduation, B.Sc. Computer Science graduates will:

1. **PEO1-Build Successful Careers or Pursue Higher Studies:** Establish themselves in rewarding professional careers or higher education in computer science and allied fields.
2. **PEO2-Demonstrate Leadership and Ethics:** Exhibit leadership qualities, ethical behavior, and social responsibility in personal and professional spheres.
3. **PEO3-Contribute to Technological and Societal Growth:** Engage in lifelong learning and contribute meaningfully to technological advancements and community development.
